

Choose the right Handy-Pak for your next project.

Concrete Handy-Pak 20kg

GENERAL PURPOSE CONCRETE

WESTBUILD General Purpose Concrete is an economical and conveniently packaged general purpose concrete that is suitable for structural concrete uses around the building site, home or garden.

Ideal for small concrete jobs, foundations and structural concrete applications, garden sheds, slabs, footings, securing posts and stumps.

Quantity Estimator - Height x Length x Width = m³

Each bag makes 0.01m³ of concrete

0.25m³ = 25 bags
0.5m³ = 50 bags

2.0m³ = 200 bags
60 bags / 1.28 tonne per pallet

Brickies Sand Pak 20kg

GENERAL PURPOSE BUILDING SAND

Ideal for mixing with cream or grey cement to form a brick / block mortar or jointing mortar. General repair work and filling sand & preparation in laying pavers or gap sand.

To lay 200 STD Bricks (230L x 110W x 76H) you will require 9 bags of brickies sand.

Parts by volume for a typical mortar mix

Brickies sand	Cement	Lime
6	1	1

White Sand Pak 20kg

GENERAL PURPOSE WHITE WASHED SAND

Ideal for mixing with white cement to form a white brick / block mortar, jointing mortar or a paving gap sand. Washed white sand is also suitable for a playground sand.

Quantity Estimator - Height x Length x Width = m³

0.25m³ = 18 bags
0.5m³ = 36 bags

64 bags / 1.28 tonne per pallet

Metal Pak 20kg

14MM STONE

Ideal for general water drainage (ie – placing inside soakwells), as well as general handyman, garden and decorative use. Can be mixed with sand and cement to form a concrete mix.

Quantity Estimator - Height x Length x Width = m³

Parts by volume for a concrete mix

Aggregate	Sand	Cement
5	2.5	1

0.5m³ = 17 bags

1.00m³ = 34 bags

64 bags / 1.28 tonne per pallet

Asphalt Pak 20kg

COLD MIX ASPHALT REPAIR

Ideal for small pothole and surface repairs to roads, driveways and footpaths. Can also be used to ramp uneven surfaces.

Quantity Estimator

5 bags will cover 0.041m³

Tip: when placing the asphalt, ensure the new asphalt is placed slightly higher to allow for compaction of the repair. Once compacted and with time, WESTBUILD Asphalt will re-set to form a hard surface. 64 bags / 1.28 tonne per pallet
