Same quality product inside	✓	✓
Can be stored outdoors - no tarp required	✓	✗
Rainproof	✓	✗
Tear resistant	✓	✗
Reduces dust - cleaner to transport	✓	✗
Recyclable and biodegradable	✓	✗
No product leakage - less waste	✓	✗
Cleaner to handle	✓	✗
And all for the same price	✓	✓

Westbuild is renowned for product quality and innovation which is why we've packaged three of our most popular products in revolutionary Dry As A Bone rainproof bags which can be stored outdoors with no need for a tarpaulin cover.

### Rainproof

The new polyethylene (PE) packaging is waterproof and can be stored outside, saving you valuable indoor storage space.

### Patented seal

The use of a patented Labyrinth Seal ensures that Westbuild's new packaging is impervious to water and unaffected by rain.

### Recyclable

Westbuild's new polyethylene (PE) bag is easier to recycle than traditional Dry-Mix concrete bags which are made from paper lined with plastic.
