

C26 Grout Cleaner

High Strength Tile and Grout Cleaner

C26 Grout Cleaner is a high strength commercial grout cleaning solution, designed to remove cement residue and is ideal to clean newly tiled areas after grouting. C26 can also be used to rejuvenate old tired grout by effective cleaning to renew the tiles and grout joint by removing the buildup that occurs on the surface.

C26 is a high strength formulation and will also remove cement residue on a newly grouted surface resulting on a more colour uniform grout joint.

Advantages

Commercial Strength	Reduces requirement of mechanical scrubbing.
Ease of use	Handy 1L containers.
Effectively removes cement laitance	Use as a general cleaner prior to handover on newly tiled areas.

Product Attributes

Uses

<i>Tiles:</i>	Premium Porcelain, Monocottura, Ceramic and mosaic tiles. DO NOT use on Natural stone products.
<i>Surfaces:</i>	Walls and floors.
<i>Location:</i>	Interior and exterior.
<i>Performance:</i>	Residential and commercial. For more information on suitable substrates or substrates that are not listed above, please contact a Westbuild representative.
<i>Colour:</i>	Pale green.
<i>Packaging:</i>	1L container.
<i>Coverage</i>	1L will cover approximately 15m ² when diluted with water.

Installation

<i>Dilution Ratio</i>	1L of C26 to 1-2 litres of water Always mix the C26 into the water Always ensure good ventilation prior to and during application
<i>Application</i>	Apply the diluted mix to the grout lines or spread over whole surface to be treated and allow to sit for 5 minutes. Although C26 Grout Cleaner is a commercial strength cleaner and does not require scrubbing, a light scrub can be applied in particularly heavily soiled areas or where extensive cleaning is required.

Where heavy laitance or staining is evident C26 can be used undiluted.

Attention

Not to be used on natural stone products.

Do not let C26 come into contact with metal surfaces, or left to dry on the surface. Always rinse the applied area with clean water. Always test an inconspicuous area first to determine satisfactory results.

Due to the strength of C26, it is not suitable as a general cleaner.

Risk

C26 is a corrosive product and contains phosphoric acid.
All other ingredients are determined to be non-hazardous.

Safety Precautions

Protective gloves and clothing should be worn when handling this product. Contact with the eyes and repeated and prolonged skin contact should be avoided.

First Aid

In case of skin or eye contact – immediately irrigate and wash affected area with plenty of water for at least 15 minutes.
